

C A A T C A G G A G T

The image displays a sequence of eleven nucleotide bases: C, A, A, T, C, A, G, G, A, G, T. Each letter is rendered in a distinct color: C is blue, A is green, T is red, and G is yellow. The letters are arranged horizontally and feature a 3D effect with a shadow cast below them. Additionally, there are small, horizontal colored bars positioned directly beneath each letter, matching the letter's color. The background is plain white.
